#### PROFESSIONAL EXPERIENCE

#### Software Developer, NHK International Corporation, Novi, MI

04/2015 - present

- Involved in planning, designing, implementing and deploying NHK's internal business system application.
- Implemented the application from scratch using technologies such as Java, Spring MVC, Hibernate, Maven, JSP, HTML5, Ajax, JQuery and Bootstrap.
- Improved the performance and speed of the system by reducing the data load time by 60%.
- Wrote SQL queries, Stored procedures and Triggers in MySQL and MS SQL databases.
- Used Hibernate ORM framework combined with JPA annotations for mapping the objects into MySQL database.
- Optimized User's browsing experience by developing responsive UI screens.

### Website Developer, Department of Florida Center for Advanced Aero Propulsion(FCAAP)

06/2013 - 08/2014

- Developed responsive web pages for FCAAP and FSU.
- Was part of a software team which maintained the websites of FCAAP and FSU.
- Gained experience in EZPublish Content management system for website content modification.
- Made extensive use of HTML, CSS, Javascript and Java.

### CS Graduate Teaching Assistant - Florida State University

08/2013 - 12/2014

- Conducted meetings with students focusing mainly on providing clarification of topics unclear to the student.
- Proctored examinations and graded student assignments.
- Provided useful guidelines and information to the students related to the coursework.

### **EDUCATION**

Masters of Science, Computer Science, Florida State University, Tallahassee, FL - 3.7 GPA

12/2014

Bachelor of Technology, Computer Science, Jawaharlal Nehru Technological University, India - 3.5 GPA 04/2012
